## TUESDAY'S ELECTION RESULTS

**Some Surprises for All-- Democrats Win in Rhode Island, Lose in Kentucky. Hearst's League Beat Again. Tom Johnson Re-elected.**

New York, Nov. 6.—Elections held throughout the country yesterday passed off in comparatively quiet. The returns from various sections show the following results:

Massachusetts elects the entire republican state ticket, headed by Curtis Guild, Jr., Henry M. Whitney, the citizens' democratic candidate for governor polled a heavier vote than Charles Bartlett, the anti-merger democrat.

Pennsylvania elects John A. Sheatz, republican, head of the ticket for state treasurer, by a large majority.

New York state elects Edward T. Bartlett and Willard Bartlett, joint candidates on the republican and democrat tickets for justices of the court of appeals, over the candidates of the independence league (Hearst). New York city elects the Tammany candidates by considerable majority over the independence league republican fusion candidates.

New Jersey is claimed by both parties. The early reports indicated a plurality for Frank S. Katzenbach Jr., democrat, candidate for governor, but later returns show John Franklin Fort, republican, making large gains. The democratic state committee claims Katzenbach's election, but Judge Fort does not concede this, and says the result is close.

The Maryland contest for the gov-

ernorship is in doubt owing to the late news of returns. Chairman Vandiver of the democratic state committee claims the state by 12,000 and conservative estimates based on returns this evening give Crothers, democrat, for governor a plurality of 6,000 to 8,000.

The Rhode Island returns indicate the democrat, over Frederick Jackson, republican, by a plurality of about 1,200, showing a democratic gain over the plurality of last year.

The election of the democratic ticket in Mississippi, headed by E. F. Noel for governor, is a foregone conclusion as there is no opposition ticket.

The Kentucky returns indicate the election of the republican ticket and the overcoming of the democratic majority of 27,000. A. E. Wilson, the republican candidate for governor, is conceded the election by from 8,000 to 10,000 majority.

In Nebraska, M. B. Reese, republican, candidate for the supreme court, the most important state office voted on, is undoubtedly elected.

The American (anti-Mormon) party at Salt Lake City is estimated to have the largest pluralities ever given in that city.

At Toledo, Mayor Whitlock and the entire independent ticket is elected.

## OFFICERS' CONVENTION ENDS

**Commissioners to Meet in Oklahoma City Nov. 11 to Receive Bids on Supplies for all New Counties--Steps Taken to Secure Uniformity of Public Records.**

County Attorney Robert Wimblish and Commissioner Short returned this morning from Guthrie highly gratified at the result of the general exchange of ideas between the new officers which they participated in this week. They believe the conference will be productive of much good, will assist the officers materially in starting off the county governments.

Guthrie, Ok., Nov. 6.—The convention of county officers of Oklahoma closed yesterday with the recommendation that all counties which had not purchased their supplies to name one of its commissioners as a member of a purchasing committee which will meet representatives of supply houses in Oklahoma City Nov. 11. Through such a committee the new counties hope to secure a better figure than in buying individually. A great many of those officials who

The convention's committee on uniformity of record recommended that the blanks, etc., now used by Oklahoma counties be continued. This committee will make another report to the purchasing agents at the Oklahoma City meeting. The Oklahoma and Indian Territory printers, who organized yesterday, will make an effort to keep on the mark in the new state, and they are being aided by the International Typographical Union, which is also interested in union goods. All the new counties expect to get their cash from the state's permanent school fund by the sale of their bonds.

The County Commissioners perfected organization by electing G. P. Greer of Weleetka president and A. L. Hausan of Coweta secretary. They meet in Oklahoma City next Monday.

W. A. Ledbetter of Ardmore, one of the legal advisers of the constitution-

Meeting this the printing concerns said that any portion of an order not necessary would be released, and guaranteed proper treatment in other particulars, which seemed to clarify the situation considerably.

A committee to determine what a new county needed in the way of supplies made a detailed report on banks and books, for the offices of register of deeds, district and county clerks, county judges and attorney, placing their cost not to exceed \$700. The list was based on present Oklahoma counties, but included none of the other ordinary office equipment or furniture. The treasurer was omitted, as his reports are to be designated by law.

### CONFERENCE OF COUNTY JUDGES

Will Meet at Oklahoma City, Nov. 11, to Discuss Court Work.

A call for a conference of the seventy-five county judges-elect of Oklahoma at Oklahoma City, Monday, Nov. 11, was made Saturday by Judge N. M. Williams of Chickasha. Judge Williams is from Grady county. He has communicated with every Judge-elect he could find and each readily responded.

The presence of practically all of the seventy-five Justices is anticipated from the correspondence Judge Williams has received.

The court work under the statehood regime will be discussed and uniformity of procedure decided on. The official call follows:

Gentlemen: Having communicated with most of you and it being the consensus of opinion that it would be desirable for us to meet and discuss

### BAPTIST CONVENTION ADJOURNS

Judge Furman Chosen Trustee for State University.

Ardmore, I. T., Nov. 5.—After selecting Chickasha as the place for meeting next year the Oklahoma Baptist State Convention adjourned last night. Trustees were elected for the State Baptist University as follows:

Henry M. Furman of Ada, A. F. Ross of Durant, G. M. Harrell of Holdenville, G. P. Selvidge of Ardmore, E. A. Wesson of Hobart, S. S. Gasswell of Frederick, D. B. Phillips of Yukon, E. D. Cameron of Sulphur, W. W. Chancellor of South McAlester, T. J. Lee of Rocky and L. H. Hawkins of Duncan.

### Can't Sell Inherited Land Says Judge.

Muskogee, I. T., Nov. 5.—Judge W. R. Lawrence today gave a decision in which he holds that the McCumber amendment prohibiting the sale of full blood Indian's land for 25 years applies to inherited lands as well as that owned by Indians living.

This is of tremendous importance to the land interests of Indian Territory. Everyone believed there was no bar to the purchase of inherited lands from the heirs of deceased fullblood Indians and land companies and individuals everywhere had purchased such land and paid cash.

The case decided today was that of Marche Tiger against the Western

Investment company. The court ordered the land conveyed back to the grantor and ordered the money paid for the land paid back to the Western Investment company which had paid it to the Indian heirs.

### Dies of Wounds Self-Inflicted.

Ardmore, I. T., Nov. 5.—Robert Howell of Pauls Valley, who accidentally shot himself in the right arm while handling a 45-caliber Colt's revolver here two weeks ago, died at the sanitarium of this city yesterday from blood poisoning. The funeral will be held here this afternoon.

Howell was a member of the Rough Riders, serving throughout the Cuban and Porto Rican campaigns. He was 35 years of age and unmarried. One brother, living in Oglethorpe, Tex., survives him.

### THE QUESTION OF COUNTY RIGHTS.

Secretary of State Wm. Cross was selected as chairman of the convention of officers-elect at Guthrie Monday. In his address to the assembled officers he said in part:

"I hope, my friends, by your coming here today, if any of you have been so foolish as to let out your printing, which you had no right to do because the constitution specifies there must be a uniformity, that we can get together and devise some means by which we can pay for this printing for it must be done. If you have got a paper in your county that can do the county printing it is no more than right that that paper should do it, because the democratic papers have fought for eighteen years in Oklahoma and have never got a penny, and I say to you, although I am a traveling man, these men that have gone over the territory and told you that you had to have these supplies or your positions would be revoked—when they told you that I look them square in the face and tell them that they knew they were lying.

"I was talking last night in my room to one of them and he said 'Yes, Bill, I have been out among the unsophisticated and told some of them that if they didn't have everything ready that their places would be taken from them. My friends, you could pick up a piece of the commonest wrapping paper and make your minutes and when you got your documents you could transcribe them at that time, and I hope that none of you have been so foolish as to have done what has come to my ears and those of that noble, grand and patriotic governor, C. N. Haskell. Why, my friends, in some of the counties I have understood and heard one man say that he had ordered seven thousand dollars worth of stuff. I want to say to that good brother if I lived in that county he would come before me two years from now and asked to be returned to the office I would have the sheriff take him to Norman to the insane asylum."

The people of Oklahoma will unanimously endorse the sentiment of that conference. Down with the foreign grafter! Patronize the home folks!

### ECONOMY AND HOME INDUSTRY.

That was a most timely and important conference held at Guthrie this week by the state and county officers-elect.

It affected particularly the financing of the new counties in the beginning, beset as it is by many difficulties. Each county is anxious to be ready for the start, and in the zeal for preparedness many of the commissioners-elect, it appears, have been entrapped by designing printing houses outside of the state.

This conference afforded much enlightenment for the new and unsophisticated commissioners and other officers.

cers. The keynote of the meeting was economy in public expenditures and the patronage of home printing houses so far as possible. Governor Haskell sounded the keynote and his sentiments met with hearty endorsement. His plan is going to enable the new counties to start on a cash basis by issuing bonds, these bonds to be bought by the state with part of the \$5,000,000 school fund donated by the U. S. Government. Thus we will be independent of the foreign money lenders. The slogan sounded at Guthrie, "Oklahoma for Oklahomans" will govern the democratic administrations through the decades to come.

And it is well. That farmer is most prosperous who "lives at home." So is that community; so is that state most prosperous which has the most varied resources, which "lives at home," and is the more nearly independent of the outside world.

### TALES OF CHICKASAW SCHOOLS.

Supervisor Umholtz Gratified at Their Showing This Year.

Sulphur, I. T., Nov. 6.—Prof. F. H. Umholtz, supervisor of the federal schools in the Chickasaw Nation, is in Sulphur visiting the schools around this city and looking after their interests.

"We have now in operation in the Chickasaw Nation," said Prof. Umholtz, "350 schools which is almost double the number we had in operation last year. We have also under federal control in the Chickasaw Nation five Indian Academies, and they are running almost double the number of pupils they had last year. The teachers we secured this year are unusually capable.

The average high, as teachers, and all over the nation the work they are doing is highly satisfactory. I notice, too, that the cities of the Chickasaw Nation have been fortunate this year in their selection of teachers. This is especially true of Sulphur. Your superintendent, Prof. Kent, and his corps of assistants can't be beat in the whole new state of Oklahoma."

While the professor is enthusiastic over his schools and talks chiefly of them, he did not forget to tell of the big dam the people of his town, Tishomingo, are completing across the Pennington. "The dam is being built primarily," said the Professor, "to run the electric light plant and cotton gin. But we will have water power enough for a dozen or more industries. The Pennington is fed by springs like the streams in the Platt National Park here at Sulphur, and their flow is never affected by the seasons. We have millions of dollars worth of the very finest granite at our door, and I often wonder what the Pharaohs and Egyptians would have built at Sulphur and Tishomingo had their lot been cast in this marvelous country."

## TUESDAY'S ELECTION RESULTS

Cincinnati elects Col. Leopold Markbreit, the republican candidate for mayor.

Reports from San Francisco show Taylor, democrat, and Good Government candidate for Mayor, leading, with the Union Labor candidate showing unexpected strength.

Cleveland, Ohio, Nov. 6.—Mayor Tom L. Johnson was yesterday re-elected for the fourth time as Mayor of Cleveland in a hard fought battle. The republican ticket was headed by Congressman Theodore E. Burton, chairman of the House committee on rivers and harbors. At midnight, Chairman Baker of the republican committee conceded the election of Johnson by 5,000 plurality. At the Johnson headquarters, his majority is placed at a higher figure and the election of the entire city democratic ticket is indicated by 3,000 or more. The democrats elect a majority of the councilmen.

### Brutal Killing of Indian.

Muskogee, I. T., Nov. 6.—Barney Splain, a Seminole Indian, was brought here yesterday and placed in jail, charged with killing I. Miller, another Indian living near Jewoka. Splain was intoxicated. He went to the home of Miller and with a club, beat the latter to death in his own yard. Then Splain went into Miller's house and slept all night while the body of his victim remained out in the yard. He was found in the house the next morning by the officers.

### Burned to Death While in a Fit.

Ardmore, I. T., Nov. 6.—While in the throes of an epileptic fit, John Fagley, a farmer living four miles east of Berwyn and ten miles northeast of Ardmore overturned a kerosene lamp at 8 o'clock Monday night, spilling the oil about his head and shoulders and causing burns from which he died three hours later.

The wife, hastily snatching a quilt, attempted to extinguish the flames, but before she succeeded, the fire had done its work.

### The Revival Growing.

Interest in the revival is continually growing, not only in attendance, but in heartfelt interest as well. The sermons Monday and Tuesday nights were powerful, and great evangelist touched the hearts of every hearer. He is indeed proving to be a power for God and the right, and there were never in the city of Ada more appreciative audiences than those who hear Brother Burke every night. He is able above all others to reach strong men and his influence is being felt by them.

The sermon of last evening especially deserves mention, for comment concerning it is on every lip today. "The way of the transgressor is hard," was his subject, and it was by far the master effort of his series of sermons to date. In the course of the sermon he told of some of his own experiences while he was as he termed it, "a transgressor." The relation of his visit to the old academy, the scene of his early school training, was both thrilling and pathetic. He closed his sermon by relating a dream in which he gave the most graphic and vivid description of heaven and hell ever heard by an Ada congregation.

Those who are not attending this meeting are wasting opportunities which are golden, in strengthening their character and preparing for the life which is to come. You will never regret hearing this man.

Tonight at the opera house the Lyceum Comedy Co. will present that beautiful temperance drama "Ten Nights in a Bar Room." This play tells a story that no one should miss. It overflows with beautiful sentiment and also has a sufficient amount of comedy. This beautiful play has been played all kinds of ways and by all kinds of companies, but the Lyceum people claim to have the best production of this play that has ever been seen. They sacrifice none of the beautiful sentiment for "slap-stick" comedy. dtt

### CELEBRATION IS A CINCH.

Committees Appointed to Arrange for Big Statehood Jubilee on the 16th.

Pursuant to call for such a meeting, a goodly number of citizens assembled Tuesday night to take steps looking to a fitting celebration of statehood at Ada the night of the 16th.

This assumes—a safe assumption—that President Roosevelt will proclaim Oklahoma a state some time during the day, Nov. 16th.

Those attending the meeting were enthusiastically in favor of holding a big celebration in the county seat, everybody in the county to be cordially invited to attend.

The following committees were appointed, which insures the success of the undertaking:

Committee on Program—T. D. McKeown, D. W. Huffar, O. B. Weaver, U. G. Winn, Captain Mills.

Committee on Finance—George Harrison, John Rinard, John Beard, Dr. F. Z. Holley, A. M. Gregg.

Don't miss the special production of "Ten Nights in a Bar Room" at the opera house tonight. This is one of the prettiest plays ever written, and as played by the Lyceum Comedy company, is well worth attending. Popular prices 25, 35 and 50 cents.

Just the Thing. Fresh buck wheat and Pancake Flour at Tobin's.

### REGULAR COUNCIL MEETING.

Board of Health Reorganized—Tussle Over Street Fair License.

At the city council's regular session Monday night there was effected a re-organization of the board of health, part of the old personnel having died, and part having moved away. Dr. H. Browall was elected city physician and ex-officio chairman of the board. Those selected as his associates on the board are Doctors Yarbrough and Ligon and councilmen Chambless and Hardin.

The council being satisfied the Oklahoma Natural Gas company had performed the part of their obligation under the city franchise requiring them to bore a well of 1,000 feet in search of gas, City Recorder Warren was instructed to return to the company, the

\$500 certified check deposited by them as a guaranty to bore to such a depth. Employees of the company filed affidavits showing same and Councilman Timberlake, after personal investigation, reported it as his opinion that the well north of town had been drilled to a depth exceeding 1,000 feet.

The matter of granting a franchise for the construction of a sewerage system was deferred till after statehood.

Bills aggregating about \$200 against the city were passed on favorably.

Again the appointment of a new night watch came up, but no one candidate could get enough votes to elect. In the meantime J. L. Ralls continues as the temporary fiercer.

Application was made for the free use of 12th street and corners at Broadway and Townsend for a street carnival from Nov. 18 to 23, the city fire department to receive a substantial per centage of the gross receipts for the purpose of buying additional apparatus needed. A majority of the council did not favor the proposition at first presentation. But after thorough canvass of the business men most all of whom signed a petition for granting the license, the license was granted upon the presentation of the following authority.

Ada, L. T., Nov. 5, 1907.

We, the undersigned, members of the city council agree to allow the Ada Fire department the free use of the streets, namely 12th street and the intersecting corners of 12th and Broadway, 12th and Townsend streets to conduct a carnival or street fair the week of November 18th to 23d, 1907, at Ada Okla., and agree to exempt the mfrom all licenses. Said Carnival to be given under the auspices of the Ada Fire department.

## APPOINTMENTS

### YET UNANNOUNCED

**Clinch for Porter and Abernathy, Looks Like Campbell and Burwell for Judges—Maybe Dickerson for Attorney.**

Washington, Nov. 3.—It is reported on good authority tonight that the president will not announce his selections for federal positions in Oklahoma until he returns from Oyster bay whither he will go tomorrow to vote Tuesday. It is thought probable that the appointments will be Wednesday.

Marshal John Abernathy of the western district said today that the president had assured him that he would be reappointed and that Marshal Porter of the eastern district would also be reappointed. These are the only ones of the six appointments of which anything is certainly known.

It is conceded on all sides that R. E. Campbell will be the judge of the eastern district.

Frantz is holding out for Cromwell for the judgeship of the Western district, but much pressure is being brought to bear to induce Frantz to endorse Judge Hainer or Judge Burwell, whom state Chairman Hunter is endorsing. It is not known that Frantz will change his endorsement. Judge Hainer said tonight he thought he had some chance of appointment but he thinks Burwell will get the plum.

It is understood that Judge Burwell will reach here tomorrow.

People are wondering whether the president sent for him. If he did it looks much like Burwell will get the judgeship.

There is talk to the effect that Judge Dickerson will defeat C. B. Rogers for the district attorneyship of the eastern district.

It is believed that the mind of the president was made up to appoint Rogers a few days ago. It is understood that the president has decided to appoint Silas Reed of Oklahoma to the judgeship of the federal court of Alaska to succeed Judge Wickersham, who was five times appointed by the president and whose appointment the senate has always refused to confirm.

### BRYAN HARMONY DINNER.

**All Wings of Party Will Be Brought Together in Great Love Feast.**

Washington, Nov. 4.—It is intended by local promoters to make the \$3 Bryan dinner, Nov. 26 at the Raleigh hotel in this city, a national affair. Willis J. Abbott, chairman of the invitation committee, who is an ardent New England advocate of the Nebraska, also located in Washington conducting a literary bureau mainly devoted to Col. Bryan's service, said today:

"I have been asked if Mr. Bryan will at the dinner we give him, make an announcement as to his candidacy. I can only say that I wish and hope he will. When I last saw him at Richmond I asked him to do this. His reply was that he would within the next two or three weeks make his position as clear as he could and after that it would be for the national democratic convention to decide if it wanted him for standard bearer. A letter has just been mailed to Mr. Bryan urging him to announce himself, as he indicated he might do at an early date, and make known his views at the Washington dinner."

Seats for the dinner were gobbled up quickly today, leaving only a few reserved for prominent men. The promoters of the occasion say their purpose, more than any other, is to bring Bryan and anti-Bryan democrats together and show the latter that there is nothing in their notions that Mr. Bryan will raise issues to which they as democrats would object. They declare that Mr. Bryan is in favor of the simplest, shortest platform possible, which, at the same time, will ignore no cardinal democratic principles. It is expected to have former anti-Bryan speakers, John Sharp Williams will possibly be one of them, to join in making the reunion a love feast and a pledging of determination to battle for a democratic victory next year.

### BANK ROBBERS GOT \$800.

**Blew Safe of Village Institution Near Atoka.**

Atoka, I. T., Nov. 5.—The Farmers' State bank, a new institution at Lewis, four miles from here, was robbed Sunday morning about 3 o'clock. Nitroglycerine was used and an opening into the safe was effected, only after three blasts. Between \$700 and \$800 was stolen.

The new bank had been in operation only a few weeks and was temporarily housed in the mercantile establishment of Rosinsky & Co. A large part of the back of the building was blown away, and the safe was torn and shattered to pieces.

As yet no clue has been found that would lead to the discovery of the guilty parties. One citizen who heard the explosion came to the store. He was quickly covered with guns and ordered to "put." Lewis is only a village and is surrounded by a wooded

country. It was within a mile of the place where some four or five years ago a bold train robbery on the M. & K. T. line took place.

### Italian Controls Miners.

McAlester, I. T., Nov. 4.—John B. Tula is one of the most important figures in the financial situation in Indian Territory today. He is a Franco-Italian living at McAlester, the official interpreter for Judge Clayton's court, a padrone and banker for the entire Indian contingent in the McAlester district. It is claimed that he has now between \$250,000 and \$260,000 in actual money where he can put his hands on it at any time.

Tula is 31 years old and he runs a restaurant at McAlester. Every Italian in the mining district embracing McAlester, Harshorn, Dow, Krebs, Savanna, Bache and half a dozen other mining towns, deposit their money with him. Every other Monday night, when they draw their pay, they keep until what they have to have and the remainder they bring to Tula. He issues his own receipts, for the money and carries it then in his own name. He has been known to sit up in his restaurant all night with \$20,000 in his pockets. There are 3,800 Italian miners in the district mentioned and they drag big wages, three and four dollars per day. It will readily be seen how this money would accumulate in the hands of Tula. For they do not invest. The Italians simply save against the day when they shall return to their home. This class of men is also the most excitable in a financial crisis and the first to demand that their money be given them. Tula knows this and while he carries large deposits in several banks in his own name he has been accumulating cash. It is said, until he could at 24 hours notice lay his hands on \$250,000.

Interpreter, restaurateur, banker, immigration agent, steamship agent, Italian consul, this man is a power in the mining district. He is more powerful even than the president of the coal trust in the mining district because he could cause every one of the Italian miners to walk out of the mines indefinitely if he wanted to. He can command all the money he needs outside of that which he carries as deposits for his countrymen.

Tula has been in this country a good many years, has educated himself, speaks several languages and is an intense and interesting character, and his importance in financial circles has been brought out strongly by the developments of the last few days while in the past he has operated in comparative obscurity, outside of his own people.

### Schools of New State.

Guthrie, Ok., Nov. 3.—Stump Ashby, ex-Texas and member of the legislature from Marshall county, Ok., recently here, expressed himself as favoring the best system of schools that money could produce for the new state, and he proposes to pay some attention to legislation along that line by the first legislature.

"One of the weightiest problems we will have to deal with," said Mr. Ashby, "will be the sale of the school lands and the establishment of a school system that will be a credit to the new state. The people of Indian Territory have suffered for years in the lack of schools, and many of our children have grown up in ignorance owing to this deficiency. It will be my desire to see established in Oklahoma a system that will equal New York or any other state of advanced ideas. This system should furnish both a practical and classical education to our boys and girls. An educated boy or girl is heir to the world and it is the duty of the government to see that they are not restricted."

"I shall favor the sale of the school lands to actual settlers with the requirement that he will live on it and utilize it. I would limit the tracts to 160 acres and stipulate that the purchaser shall build a home, not a shack. With this I would make the payments long time, so the purchaser would have an opportunity to improve the land and make a living while he was doing it."

Mr. Ashby announces he will present a bill to the legislature granting pensions to ex-Confederate soldiers and sailors.

### To Have An Elegant Thanksgiving.

Sulphur, I. T., Nov. 6.—The teachers of the Chickasaw Nation will hold their annual thanksgiving in Sulphur on Friday and Saturday after Thanksgiving day, Nov. 29 and 30. Their headquarters will be at the Artesian Hotel. Murray county's energetic young lady superintendent of schools, Miss Essie Bell, is sending out a special invitation to each teacher on a Sulphur souvenir card urging attendance. Miss Bell, assisted by the teachers of Sulphur, the management of the Artesian and the various social orders of the city, is arranging to show the members of the Chickasaw Teachers' Association and their friends who may come with them something unusual in the way of an elegant time.

## THE LIMIT OF PATIENCE.

**Owner of One Telephone in Flat Building Protests.**

"Of course," said the cheerful woman, "I believe in loving my neighbor as myself, but I find it harder since we have had a telephone put in our flat. We live in an old-fashioned flat house and ours is the only telephone on the premises. I do not know how the neighbors learned that we have one, for I am not acquainted with anybody in the building, but it was not in more than a week when the woman across the hall came over to ask if she could use it. Of course I'll pay her, and naturally I had no choice but to let her use it. She paid five cents, but under the rules of the telephone company private wires cost more than that per message. However, I did not wish to be small, so I let it pass. She evidently carried the good news throughout the building for there has been a continuous performance ever since. A few days ago somebody rang me up and asked for Mrs. Blank, who lives on the top floor. I was the only person at home at the time, so I had to climb three flights of stairs and tell Mrs. Blank to come down. What's that? Virtue its own—Oh, yes, I know; but whose virtue?"

## RISES WITH A COMPLAINT.

**Alkali Eye Displeased with Vaudeville Performance.**

We went up to Houston to meet with the lumbermen, not that we air a lumberman at all, but we air more interest in the plan of making booze 'em sawdust, and it was up to us to be astir these ducks what they are doing at present with their output. If they ain't drinkin' it up we'd like to make them a proposition lookin' for the startin' of a distillery. If see a distillery is started we kin guarantee to dispose of the output. Whilst we was in Houston we was th guessting the honored guessting, of the majestic theater, and we have ben sufferin' 'em nervous prostration ever since; a duck who done a chair balancin' act used bottles of beer to balance on and his feet was the most thrillin' one we ever seen; he was 'lible to fall at any minute and we'd like to ask what'd become of that beer if he had fell? He'd busted them bottles as sure as shootin'; we was so nervous at the bare thought of sech an accident that we ain't got over shudderin' yet. Later—Since writin' this above we have learned that them beer bottles wuz empty, and that fact makes it even more aservatin'.—Alkali Eye to the Houston Post.

## Women Who Should Shave.

"One thing I am proud of about New York women," said the man who just got home, "is that they are clean shaven. I never saw anything like the side-whiskers and beards on the women in France, Italy and Switzerland. In Paris once I walked into a shoe store and stood there petrified, forgetting what I went in for, the big brunette cashier at the desk had such a furious mustache."

## Advice as to Alaska.

There will be an element of surprise in the advice of Dr. Henry Gannett, of the United States geological survey. "If you are old, go to Alaska by all means; but if you are young, wait." Mr. Gannett gives this reason for his advice: "The scenery of Alaska is more grander than anything else of the kind in the world, and it is not so far from our capacity for enjoying it as you think."

## Not Equal to Luxuries.

A dapper young man took a seat on a bench in Madison Square Park, says the New York Press. Sunning himself at the other end of the bench was as fine a specimen of the genus hobnob as ever disfigured a landscape. After seating himself the dapper young man drew a handsome silver case from his pocket and extracted therefrom a cigarette. With the cigarette between his teeth, he drew out a silver match box, to find it empty. Snapping down the lid, he turned to the tramp, besetated, then said: "I beg pardon, my friend, but do you happen to have a match?" Hands plunged into his trousers' pockets and legs sprawled out before him, the tramp surveyed his neighbor with an air of deep melancholy. "Say," he muttered hoarsely, "who do you think I am—J. Pierpont Morgan?"

## Sufficient Reason.

Queer excuses are not infrequently offered to account for the lateness of the trains on a certain railroad running into this city, but the limit was reached the other day.

The train was a local from Yonkers stopping at every station on the line and at nearly as many points where no station was to be seen. Finally, after having lost 32 minutes en route, the train rolled with much deliberation into New York—the station that is. As the passengers filed out in conditions of mind varying from those of hopeless despair and resignation to those of impatience and even, we regret to say, of profanity, a mild-looking little man ventured to ask the conductor what had caused the delay. The conductor spat judiciously and vouchsafed an explanation that to his mind was apparently eminently conclusive and satisfactory:

"We were running behind an express train," he said.—New York Times.

## PAT'ER HAD HOPES FOR HIM.

**Bumptuous Youth Got Benefit of a Little Plain Talk.**

The following is related of a certain well-known New York business man and his son: The son had just left Harvard and was fired with ambitions which did not include going into his father's office. When he arrived home his parents began seriously to discuss his future. He stated what his ideas were and spoke of the professions as most likely to afford scope for his genius. The law, he thought, would be the likeliest career. His father, however, had not a very high opinion of his abilities, and said so without mincing words. "I think," he declared, "you had better make a beginning by adorning one of my office stools. We can think about your taking up the law afterward." The young man did not see it that way. Office life he loathed; and said it was an existence fit only for a dog. "Well, my son," retorted the father, dryly, "you're not a dog yet, but you'll grow."

## The Gregation.

There is a tiny church near the foot of one of the Western Gramplans which has a congregation numbering, in the best of weather, not more than 20 people. On stormy days the number is much less, as members have to travel considerable distances. A tourist happened to come across this church early one Sunday afternoon. He listened for a bit, but heard no sound, so went to the door of the church and looked in. The beadle was the only occupant. "Is the service over?" he asked. "On ay, she will pover," replied the old man. "Then where is the congregation?" asked the tourist. The beadle slowly pointed through the open door to a man wending his way down a hill and said: "That's him."

**Precautions Against Electric Fires.** If your dwelling is electrically lighted never place wood, clothes or other inflammable material against the wires, meters or switches; never use an electric wire as a clothesline, and see to it that your dwelling is kept free from rats, as these pests often gnaw the insulation from the wires. The amount of loss from "electric fires" in the United States in one year, according to the Saturday Evening Post, is \$15,000,000.

## Carter Not Worried Over Contest.

Guthrie, Okla., Nov. 5.—Charles Carter of Ardmore, congressman-elect from the Fourth Oklahoma district, is not losing any sleep as the result of alleged contest proceedings, instituted against him by L. G. Dizney, the defeated republican nominee. His friends are even treating it as a huge joke.

Carter was elected over Dizney by a majority of more than 13,000 and he feels that this should be decisive enough. Dizney came to Indian Territory as a carpet-bagger, several years ago from Topeka, Kans., and bag of quail.

after losing his position on the Dawes commission, located at Atoka.

Judge W. A. Ledbetter of Ardmore who has been retained by Mr. Carter to represent him in this district, has numerous precedents, made by congress in similar cases, all of them in Carter's favor.

Mayor Barton and Col. George Thompson spent Tuesday on a trip up in the Tyrola country mingling pleasure with business, or vice versa. Anyhow, they brought back a nice little bag of quail.

## Italian Controls Miners.

McAlester, I. T. Nov. 4.—John B. Tuna is one of the most important figures in the financial situation in Indian Territory today. He is a French-Italian living in McAlester, the official interpreter for Judge Clayton's court. A Padone and banker for the entire Indian continent in the McAlester district. It is claimed that he has now between \$250,000 and \$260,000 in actual money which he can put in his hands on a moment's notice.

Tuna is 45 years old and he runs a restaurant at McAlester. Every Italian in the mining district embracing McAlester, Hartsboro, Dow, Krebs, Sayona, Biche and half a dozen other mining towns deposit their money with him. Every other Monday night when they draw their pay they keep out what they have to have and the remainder they bring to Tuna. He issues his own receipts for the money and carries it then in his own name. He has been known to sit up in his restaurant all night with \$20,000 in his pockets. There are 300 Italian miners in the district mentioned and they draw up wages three and four dollars per day. It will readily be seen how this money would accumulate in the hands of Tuna if they do not invest.

The Italians simply save against the day when they shall return to their home. This class of men is also the most excitable in a financial crisis and the first to demand that their money be given them. Tuna knows this and while he carries large deposits in several banks in his own name he has been accumulating cash. It is said that he could at 24 hours' notice lay his hands on \$2,000,000.

In the last restaurant I took a lunch at, Tuna was sitting at a table with him. This man is a power in the mining district. He is more powerful than the president of the territorial trust in the mining district because he could cause any one of the Italian miners to walk out of the mine and command all the money in his hands at side of this which he has in deposits for his countrymen.

Tuna has been in this country a good many years. He educated himself speaks several languages and is an intense and interesting character. His importance in financial circles has been brought out strongly by the developments of the last few days. While in the past he has operated in comparative obscurity outside of his own people.

## Schools of New State.

Guthrie, Ok. Nov. 3.—Stump Ashby ex-Texas and member of the legislature from Marshall county, Ok. recently here expressed himself as favoring the best system of schools that money could produce for the new state and he proposes to pay some attention to legislation along that line by the first legislature.

One of the weightiest problems we will have to deal with, said Mr. Ashby, will be the sale of the school lands and the establishment of a school system that will be a credit to the new state. The people of Indian Territory have suffered for years in the lack of schools and many of our children have grown up in ignorance owing to this deficiency. It will be my duty to see established in Oklahoma a system that will equal New York or any other state of advanced ideas. This system should furnish both a practical and classical education to our boys and girls. An educated boy or girl is heir to the world and it is the duty of the government to see that they are not restricted.

I shall favor the sale of the school lands to actual settlers with the requirement that he will live on it and utilize it. I would limit the tracts to 160 acres and stipulate that the purchaser shall build a home, not a shack. With this I would make the payments long time so the purchaser would have an opportunity to improve the land and make a living while he was doing it.

Mr. Ashby announces he will present a bill to the legislature granting pensions to ex-Confederate soldiers and sailors.

## Do Have An Elegant Thanksgiving.

Sulphur, I. T. Nov. 6.—The teachers of the Chickasaw Nation will have their annual Thanksgiving in Sulphur on Friday and Saturday. This is a giving day. Nov. 29 and 30. Their headquarters will be at the Arcadian Hotel. Murray county's energetic young superintendent of schools, Miss Bell, is sending out a special invitation to each teacher on a special souvenir card urging attendance. Miss Bell, assisted by the teachers of Sulphur, the management of the Arcadian and the various social officers of the city, is arranging to show the members of the Chickasaw Teachers Association and their friends who may come with them something unusual in the way of an elegant time.

## THE LIMIT OF PATIENCE.

**Owner of One Telephone in Flat Building Protests.**

"Of course," said the cheerful woman, "I believe in loving my neighbor as myself but I find it harder since we have had a telephone put in our flat. We live in an old-fashioned flat house and on the telephone on the premises. I do not know how the neighbors learned that we have one, for I am not acquainted with any body in the building, but it was not more than a week when the woman across the hall came over to ask if she could use it. Of course I'll pay for it and naturally I had no choice but to let her use it. She paid five cents, but under the rules of the telephone company private wires cost more than that per message. How ever I did not wish to be small, so I let it pass. She eventually carried the good news throughout the building and there has been a continuous performance ever since. A few days ago some body rang me up and asked for Mrs. Blank who lives on the top floor. I was the only person at home at the time so I had to climb three flights of stairs and tell Mrs. Blank to come down. What's that? Virtue its own reward? Oh yes I know but whose's?"

## Women Who Should Shave

"One thing I am proud of about New York women," said the man who just got home, "is that they are clean shaven. I never saw anything like the side-whiskers and beard on the women in France, Italy and Switzerland. In Paris once I walked into a shoe store and stood there petrified forgetting what I went in for. The brunette cashier at the desk had such a furious moustache.

## Not Equal to Luxuries

A dapper young man took a seat on a bench in Madison Square Park says the New York Press. Sunning himself at the other end of the bench was a fine specimen of the genus hobo as ever disdained a landscape. After seating himself the dapper young man drew a handsome silver case from his pocket and extracted therefrom a cigarette. With the cigarette between his teeth, he drew out a silver match box, and to find it empty. Snapping down the lid, he turned to the tramp beside him, then said, "I beg pardon my friend, but do you happen to have a match?" Hands plunged into his trousers pockets and legs sprawled out before him, the tramp surveyed his neighbor with an air of deep melanchole. "Say," he ruttered hoarsely, "who do you think I am—J. Pierpont Morgan?"

## Sufficient Reason.

Queer excuses are not infrequently offered to account for the lateness of the trains on a certain railroad running into this city, but the limit was reached the other day.

The train was a local from Yonkers stopping at every station on the line and at nearly as many points where no station was to be seen. Final stop having lost 32 minutes on the train rolled with much deliberation into New York—the station that is. As the passengers fled out in conditions of mind varying from those of hopeless despair and resignation to those of impatience and even a secret to say of prolatity, a multi-looking little man ventured to ask the conductor what had caused the delay. The conductor spat judiciously and vouchsafed an explanation that to the mind was apparently eminently conclusive and satisfactory.

We were running behind an express train," he said.—New York Times.

## FATHER HAD HOPES FOR HIM

**Bumptious Youth Got Benefit of a Little Plain Talk.**

The following is related of a certain well-known New York business man and his son. The son had just left Harvard and was filled with ambitions which did not include going into his father's office. When he arrived home his parents began seriously to discuss his future. He stated what his ideas were and spoke of the professions as most likely to afford scope for his genius. The law, he thought, would be the likeliest career. His father however had not a very high opinion of his abilities and said so without mincing words. "Think," he declared, "you had better make a beginning by adorning one of my office stools. We can think about your taking up the law afterward. The young man did not see it that way. Office life he loathed and said it was an existence fit only for a dog. Well my son, to a dog yet, but you'll grow."

## The Gregation

There is a tiny church near the foot of one of the Western mountains which has a congregation numbering by half a dozen with not more than 20 people. On stormy days the number is much less as members have to travel considerable distances. A tour has been made to some across the church only once. Sunday afternoon he started for a bit but he had a second and went to the foot of the church and found in the middle of the only a man. Is the service over? he asked. "On a day like this," over he said the old man. "The church is the only place where you can find a man like this."

## Precautions Against Electric Fires.

If your dwelling is electrically lighted never place wood clothes or other inflammable material against the wires, meters or switches, never use an electric wire as a clothesline, and see to it that your dwelling is kept free from rats as these pests often gnaw the insulation from the wires. The amount of loss from "electric fires" in the United States in one year according to the Saturday Evening Post is \$1,000,000.

## Carter Not Worried Over Contest.

Guthrie, Okla., Nov. 5.—Charles Carter of Ardmore congressman-elect from the Fourth Oklahoma district is not losing any sleep as the result of alleged contest proceedings instituted against him by L. G. Diney the defeated republican nominee. His friends are even treating it as a huge joke.

Carter was elected over Diney by a majority of more than 13,000 and he feels that this should be decisive enough. Diney came to Indian Territory as a carpet-bagger several years ago from Topeka, Kans. and after losing his position on the Dawes commission, located at Atoka.

## TUESDAY'S ELECTION RESULTS

**Some Surprises for All-- Democrats Win in Rhode Island, Lose in Kentucky. Hearst's League Beat Again. Tom Johnson Re-elected.**

New York Nov. 5.—Election held throughout the country yesterday passed off in comparatively quiet returns in many sections. In the following results:

Massachusetts elects its entire public state ticket headed by Charles Chandler, Henry M. Whitte, the citizen's democratic candidate for governor polled a heavier vote than Charles Chandler, the anti-merger democrat.

Pennsylvania elects John A. Sheatz, republican head of the ticket for state treasurer by a large majority.

New York state elects Edward I. Bartlett and Willard Bartlett joint candidates on the republican and democrat tickets for justices of the court of appeals over the candidates of the independence league (Hearst). New York city elects the Tammany candidates by considerable majority over the independence league/republican fusion candidates.

New Jersey is claimed by both parties. The early reports indicated a plurality for Frank S. Katzenbach for democrat candidate for governor but later returns show John Franklin Fort republican making large gains. The democratic state committee claims Katzenbach's election but Judge Fort does not concede this and says the result is close.

The Maryland contest for the gov-

ernor is still in doubt. In the last round of returns Chairman Vickers of the democratic state committee claims the state. The republican candidate, Thomas H. Burton, is reported to have lost by a narrow margin.

The Rhode Island returns indicate a heavy vote for the republican ticket headed by a plurality of about 100 showing a democratic gain over the plurality of last year.

The election of the democratic ticket in Mississippi headed by E. L. Noel for governor is a foregone conclusion as there is no opposition ticket.

The Kentucky returns indicate the election of the republican ticket and the overcoming of the democratic majority of 27,000. A. D. Wilson, the republican candidate for governor is conceded the election by from 8,000 to 10,000 majority.

In Nebraska M. B. Reese, republican candidate for the supreme court, the most important state office voted on is undoubtedly elected.

The American (anti-Mormon) party at Salt Lake City is estimated to have the largest plurality ever given in that city.

At Toledo Mayor Whitlock and the entire independent ticket is elected.

## OFFICERS' CONVENTION ENDS

**Commissioners to Meet in Oklahoma City Nov. 11 to Receive Bids on Supplies for all New Counties--Steps Taken to Secure Uniformity of Public Records.**

County Attorney Robert Wimblish and Commissioner Short returned this morning from Guthrie highly gratified at the result of the general exchange of ideas between the new officers which they participated in this week. They believe the conference will be productive of much good will and assist the officers materially in starting off the county governments.

Guthrie, Ok., Nov. 4.—The convention of county officers of Oklahoma held yesterday with the recommendation that all counties which had not purchased their supplies to date one of its commissioners as a member of a purchasing committee which will meet at Guthrie, Ok., Nov. 11 through such a committee the new officers hope to secure uniformity in their buying, individually.

The convention's committee on uniformity of record recommended that the blanks etc. now used by Oklahoma counties be continued. This committee will make another report to the purchasing agents at the Oklahoma City meeting. The Oklahoma and Indian Territory printers who organized yesterday will make an effort to keep on the mark in the new state and they are being aided by the International Typographical Union which is also interested in uniform records. All the new counties expect to get their cash from the state's permanent school fund by the sale of their bonds.

The County Commissioners perfect their organization by electing C. P. G. T. Wicks, president and A. I. H. Smith of Cowley secretary. They meet in Oklahoma City next Monday.

Meeting this the printing concerns said that any portion of an order not necessary would be released and guaranteed proper treatment in other portions which seemed to clarify the situation considerably.

A committee to determine what a new county needed in the way of supplies made a detailed report on bank and books for the offices of registers of deeds district and county clerks county judges and attorney placing their cost not to exceed \$700. The list was based on present Oklahoma counties but included none of the other ordinary office equipment or furniture. The treasurer was omitted as his reports are to be designated by law.

### CONFERENCE OF COUNTY JUDGES

Will Meet at Oklahoma City, Nov. 11, to Discuss Court Work.

A call for a conference of the seventy-five county judges of Oklahoma at Oklahoma City Monday, Nov. 11, was made Saturday by Judge W. M. Williams of Chickasha. Judge Williams is from Grady county. He has communicated with every judge that he could find and each readily responded.

The presence of practically all of the seventy-five justices is anticipated from the correspondence Judge Williams has received.

The court work under the statehood regime will be discussed and uniformity of procedure decided on. The official call follows:

Gentlemen: Having communicated with most of you and it being the consensus of opinion that it would be desirable for us to meet and discuss

matters of importance and persunance to a suggestion made by a majority I call said meeting for Monday the 11th day of November at the parlors of the Lee Hotel Oklahoma City at 2 p. m. Very respectfully,

N. M. WILLIAMS

### BAPTIST CONVENTION ADJOURNS

Judge Furman Chosen Trustee for State University.

Ardmore, I. T. Nov. 4.—After adjourning Chickasha is the place for meeting next year the Oklahoma Baptist State Convention adjourned last night. Trustees were elected for the State Baptist University as follows:

Henry M. Furman of Ada, A. F. Ross of Durant, G. M. Harrell of Holdenville, G. P. Selvidge of Ardmore, B. A. Wesson of Hobart, S. S. Gaswell of Frederick, D. B. Phillips of Yukon, D. D. Cameron of Sulphur, W. W. Chancellor of South McAlester, J. J. Lee of Rocky and I. H. Hawkins of Duncan.

### Can't Sell Inherited Land Says Judge.

Muskogee, I. T. Nov. 5.—Judge W. R. Lawrence today gave a decision in which he holds that the McCumber amendment prohibiting the sale of full blood Indian land for 25 years applies to inherited lands as well as that owned by Indians living.

This is of tremendous importance to the land interests of Indian Territory. Everyone believed there was no bar to the purchase of inherited lands from the heirs of deceased fullblood Indians and land companies and individuals everywhere had purchased such land and paid cash.

The case decided today was that of Marchie Tiger against the Western

Investment company. The court ordered the land conveyed back to the grantor and ordered the money paid for the land paid back to the Western Investment company which had paid it to the Indian heirs.

### Dies of Wounds Self-Inflicted.

Ardmore, I. T. Nov. 5.—Robert Howell of Pauls Valley, who accidentally shot himself in the right arm while handling a 45 caliber Colt's revolver here two weeks ago died at the sanitarium of this city yesterday from blood poisoning. The funeral will be held here this afternoon.

Howell was a member of the Rough Riders, serving throughout the Cuban and Porto Rico campaigns. He was years of age and married. One brother living in Ontario, 7, survives him.
